Personal Smart Voice Amplifier

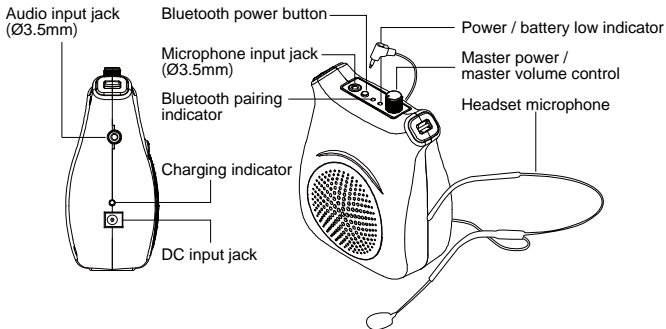

Operation manual

In the box

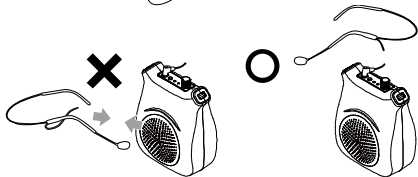

Headset microphone, strap, switching power supply (100-240V AC, 15V DC 1.2A) and operation manual.

※Specifications are subject to change without prior notice.

Parts and functions

To avoid feedbacks,
DO NOT face the
microphone to the
speaker.

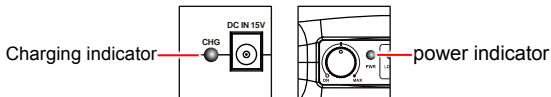

Operating procedures

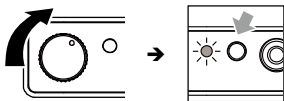

- To operate this voice amplifier, turn on the main power switch and the power indicator will be GREEN. If it turns RED, its battery power is lower than 20% and recharging is necessary. The amplifier can still operate during charging process
- There is a MIC IN jack with volume control on this voice amplifier. To use a headset microphone, just insert its phone plug into the MIC IN jack. Then turn on the Power/volume control and rotate it to adjust the volume.

Important safety instructions

- This product has a built-in LI-ION battery and protection circuit, ready to charge anytime.
- DO use standard switching adaptor (100-240V AC, 15V DC 1.2A) to avoid damages to the product. Battery should be fully charged after every use or every three months.
- DO NOT expose the product to heat sources or inflammables during charging.
- During the charging process, the charging indicator will light RED, GREEN, ORANGE in order, and then flash RED. When this LED turns GREEN, this battery is then fully charged and please remove the power supply. If the indicator flashes ORANGE, the battery is either error or not detected and should be returned for repair.
- When the power indicator turns RED, the battery power is lower than 20% and need to be charged.

Operating BLUETOOTH receiver

DEVICES

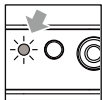

...

Now Discoverable

BT AUDIO

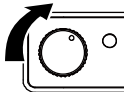

Turn on master POWER and then press the switch button (SW) 3 seconds to turn on the BLUETOOTH receiver. The indicator will flash green and the amplifier is ready for pairing.

Activate BLUETOOTH on your device (phone, tablet, PC., etc) and pair with external BLUETOOTH device named "BT AUDIO".

After successful linking, the pairing indicator will glow green and you can start playing music.

Adjust master volume control to a desired level.

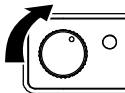

Important

- The BLUETOOTH automatically turns off after no pairing for 5 minutes.
- Press switch button (SW) for disconnection and getting ready for new pairing.
- The BLUETOOTH can memorize and automatically connect to last-paired device.

Music audio input (AUX IN)- Smart phone / tablet / MP3 player

Connect your device to the 3.5mm jack of AUX IN with a 3.5mm 3-pole stereo audio cable.

Turn ON master POWER and adjust master volume to desired level.
